

Oh, Baby!

We are so excited to offer our patient families the services of an Internationally Board Certified Lactation Consultant, right here in our office! Jessica Stokowski, RN, IBCLC, has been with Bloomington Pediatrics for several years now as one of our amazing pediatric nurses – you likely have spoken with Jess on the phone as one of our incredibly helpful phone triage nurses. She is passionate about helping new moms, and is thrilled to share her depth of knowledge and experience with you!

Jessica is available for lactation consult appointments Monday, Tuesday, Wednesday and Friday from 11:00am to 4:00pm. To schedule an appointment, please call our office at [309-662-0504](tel:309-662-0504). Have a question on Thursday when Jess is not available? Feel free to use option 9 to leave her a voicemail!

Good to Know!

We are so happy you have chosen our practice for your family! In our office, we aim to treat all patient families with kindness, compassion, and respect. We expect the same from our patient families toward our staff and providers.

Parents or patients who do not treat our staff and providers with respect may be asked to seek another practice for their care. Likewise, we want to know if you have a negative experience with our staff or providers so that we may address it. If this occurs, please call the office and ask to speak with the Office Manager.

If you received excellent care, please consider leaving us a 5-star review on Google!

PROVIDER NEWS

Farewell, Dr. Hahn!

Effective April 28, 2024, Dr. Deanna Hahn will be leaving Bloomington Pediatrics. She has accepted a position with a pediatric practice in her home state of Iowa and is looking forward to being closer to her family. We wish her the very best in this new venture!

Bloomington Pediatrics remains committed to providing excellent care to the pediatric patients of our community. As such, patients currently under the care of Dr. Hahn may elect to stay with our practice and transfer care to Amanda Wackt, our wonderful nurse practitioner. Dr. Ashley Kohaus and Dr. Kaye Toohill are also accepting a limited number of patients. Please call us at 309-662-0504 to speak with a scheduler about your options.

Patients of Dr. Hahn who have reached the age of 19 years or older should now seek an adult medicine healthcare provider. You can check with your insurance company to see who is in-network for your plan. Upon written request, we will promptly send your medical records to the physician of your choice, at no charge to you.

We thank Dr. Hahn for her 26 years of service to the families of the Bloomington-Normal area and wish her future happiness and success!

You'll be missed!

Planning Ahead

Spring is here! Which means Summer is just around the corner! Physicals are required for children entering Kindergarten, 6th and 9th grade. A physical is also required for children playing sports. Your child may also need a physical form for certain summer camps or Boy/Girl Scout activities.

Avoid the summer rush and schedule your child's appointment today! Call us at 309-662-0504, option 3 to secure a day and time that works best for you.

We have most forms for school and athletic departments, but please check with your parks and rec program, or pack/troop leaders and bring necessary forms with you to your appointment so your provider may sign it for you in the office.

Vaccination Policy

In recent years parents have been reluctant to vaccinate due to personal beliefs that may include vaccine safety or that these illnesses are not present. We are now seeing increased cases of whooping cough and measles due to this lack of vaccination.

Bloomington Pediatrics has always had a strong belief that immunizations are safe and vital to keeping our patients and community at large well. While we respect the right of parents to make the decisions they feel best for their child, families who choose not to vaccinate should seek a practice more compatible with their beliefs.

About Appointments

We know how busy our patient families can be and are happy to offer appointment reminders! Families may elect their preferred method of contact from our office: Phone, Text, or Email/Portal.

A reminder will be sent 60 days prior, as well as the day before an appointment in our office. We ask that you let us know as soon as possible if you are unable to keep your scheduled appointment. Early notification allows us to offer that appointment to another patient.

If you find that you are running behind schedule and will be late for your appointment, we ask that you call to let us know. Our staff will advise if we can accommodate the late arrival or if we need to reschedule.

Wishing you all a wonderful Spring season filled with joy, warmth, and good health!

*~Stay Well,
The Providers & Staff of Bloomington Pediatrics*
